

VEHICLE SECURITY AND CONVENIENCE SYSTEMS

SAVTEK
VEHICLE SECURITY SYSTEMS

GALAXY VEHICLE SECURITY SYSTEMS

GALAXY 500RS-2W

Galaxy 5000RS-2W Plus -

Complete Security and Remote Engine Starter System

- Remote Start module
- Controller Module
- Two 5-button 2-way remote
- Wiring harnesses
- Dual Zone Shock Sensor
- Siren

Features

- "ScyNet" network DataPort Accessory Interface and Wizard Software
- Two 5 Button 2-way Remote Controls (2 remotes max.)
- Built-In Parking-Light Relay Programmable (+/-)
- Plug-in user programmable Coded Override Switch
- Plug-in Dual-Zone Dual Adjust Piezo Sensor
- Horn / Ignition 2 (Programmable) Output
- Remote Door Locking/Unlocking with negative outputs
- Passenger Unlock Output
- Two Auxiliary Channels with Selectable

Output Types, (Pulsed, Timed or Latched)

- User-Selectable Auto-Arming
- User-Selectable Auto-Rearming
- Remote Panic with Smart Locking/Unlocking
- User-Selectable AutoLock - Instant or RPM dependant
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch Connectors
- AutoActivation of Auxiliary 2 Output for Comfort closure (windows)
- Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
- Smart Remote Trunk Release
- Alarm Trigger Identification
- Optional plug-in Door Lock Relay Module

Starter Features

- True RPM Sensing for Real Time Cranking
- RPM Pulse Finding Mode Indication
- Tachless Mode -- Dual Mode reliable Smart Engine Run Sensing
- Gas or Diesel Mode with glow plug input
- Cold Start Timer (Programmable)
- Dedicated Starter Active Output for factory

transponder bypass

- Starter Disable Output for Anti Grind feature
- Factory Disarm Output
- Factory Rearm Output
- Programmable Aux. Relay outputs (2nd. Ignition, 2nd. Accessory or 2nd. Starter)
- Stop & Go Mode
- Selectable Engine Run Time
- Enable or Disable Remote Start in Valet Mode

ScyNet® Network Optional Accessories:

- Two-Way FM Pager (Confirmation Icon Display with Extended Range)
- Channel Expander

GALAXY 500RS

Galaxy 5000RS Plus -

Complete Security and Remote Engine Starter System

- Remote Start module
- Controller Module
- Two 5-button remote
- Wiring harnesses
- Dual Zone Shock Sensor
- Siren

Features

- "ScyNet" network DataPort Accessory Interface and Wizard Software
- Two 5 Button Remote Controls (four remotes max.)
- Built-In Parking-Light Relay Programmable (+/-)
- Plug-in user programmable Coded Override Switch
- Plug-in Dual-Zone Dual Adjust Piezo Sensor
- Horn / Ignition 2 (Programmable) Output
- Remote Door Locking/Unlocking with negative outputs
- Passenger Unlock Output

- Two Auxiliary Channels with Selectable Output Types, (Pulsed, Timed or Latched)
- User-Selectable Auto-Arming
- User-Selectable Auto-Rearming
- Remote Panic with Smart Locking/Unlocking
- User-Selectable AutoLock - Instant or RPM dependant
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch Connectors
- AutoActivation of Auxiliary 2 Output for Comfort closure (windows)
- Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
- Smart Remote Trunk Release
- Alarm Trigger Identification
- Optional plug-in Door Lock Relay Module

Starter Features

- True RPM Sensing for Real Time Cranking
- RPM Pulse Finding Mode Indication
- Tachless Mode -- Dual Mode reliable Smart Engine Run Sensing
- Gas or Diesel Mode with glow plug input
- Cold Start Timer (Programmable)

● Dedicated Starter Active Output for factory transponder bypass

- Starter Disable Output for Anti Grind feature
- Factory Disarm Output
- Factory Rearm Output
- Programmable Aux. Relay outputs (2nd. Ignition, 2nd. Accessory or 2nd. Starter)
- Stop & Go Mode
- Selectable Engine Run Time
- Enable or Disable Remote Start in Valet Mode

ScyNet® Network Optional Accessories:

- Two-Way FM Pager (Confirmation Icon Display with Extended Range)
- Channel Expander

GALAXY 2000RS-2W

Galaxy 2000RS-2W Plus -

- Remote Start module
- Controller Module
- Two 5-button 2-way remote
- Wiring harnesses

Features

- "ScyNet" network DataPort Accessory Interface and Wizard Software
- Two 5 Button 2-way Remote Controls (2 remotes max.)
- Built-In Parking-Light Relay Programmable (+/-)
- Plug-in user programmable Coded Override Switch
- Horn / Ignition 2 (Programmable) Output
- Remote Door Locking/Unlocking with negative outputs
- Passenger Unlock Output
- Two Auxiliary Channels with Selectable Output Types, (Pulsed, Timed or Latched)

- User-Selectable AutoLock - Instant or RPM dependant
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch Connectors
- AutoActivation of Auxiliary 2 Output for Comfort closure (windows)
- Smart Remote Trunk Release
- Alarm Trigger Identification
- Optional plug-in Door Lock Relay Module

Starter Features

- True RPM Sensing for Real Time Cranking
- RPM Pulse Finding Mode Indication
- Tachless Mode -- Dual Mode reliable Smart Engine Run Sensing
- Gas or Diesel Mode with glow plug input
- Cold Start Timer (Programmable)
- Dedicated Starter Active Output for factory

transponder bypass

- Starter Disable Output for Anti Grind feature
- Factory Disarm Output
- Factory Rearm Output
- Programmable Aux. Relay outputs (2nd. Ignition, 2nd. Accessory or 2nd. Starter)
- Stop & Go Mode
- Selectable Engine Run Time
- Enable or Disable Remote Start in Valet Mode

ScyNet® Network Optional Accessories:

- Two-Way FM Pager (Confirmation Icon Display with Extended Range)
- Channel Expander

GALAXY 2000RS

- Pre-wired LED, Sensor, and Valet Switch Connectors
- AutoActivation of Auxiliary 2 Output for Comfort closure (windows)
- Smart Remote Trunk Release
- Alarm Trigger Identification
- Optional plug-in Door Lock Relay Module

Starter Features

- True RPM Sensing for Real Time Cranking
- RPM Pulse Finding Mode Indication
- Tachless Mode -- Dual Mode reliable Smart Engine Run Sensing
- Gas or Diesel Mode with glow plug input
- Cold Start Timer (Programmable)
- Dedicated Starter Active Output for factory transponder bypass
- Starter Disable Output for Anti Grind feature
- Factory Disarm Output
- Factory Rearm Output
- Programmable Aux. Relay outputs (2nd. Ignition, 2nd. Accessory or 2nd. Starter)
- Stop & Go Mode
- Selectable Engine Run Time
- Enable or Disable Remote Start in Valet Mode

Galaxy 2000RS Plus -

- Remote Start module
- Controller Module
- Two 5-button remote
- Wiring harnesses

Features

- "ScyNet" network DataPort Accessory Interface and Wizard Software
- Two 5-Button Remote Controls (4 remotes max.)
- Built-In Parking-Light Relay Programmable (+/-)
- Plug-in user programmable Coded Override Switch
- Horn / Ignition 2 (Programmable) Output
- Remote Door Locking/Unlocking with negative outputs
- Passenger Unlock Output
- Two Auxiliary Channels with Selectable Output Types, (Pulsed, Timed or Latched)
- User-Selectable AutoLock - Instant or RPM dependant
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting

GALAXY 3000 +

- User-Selectable AutoLock - Instant or RPM dependant
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch Connectors
- Auto Activation of Auxiliary 2 Output for Comfort closure (windows)
- Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
- Smart Remote Trunk Release
- Alarm Trigger Identification
- Optional plug-in Door Lock Relay Module

ScyNet® Network Optional Accessories:

- Two-Way FM Pager (Confirmation Icon Display with Extended Range)
- Remote Engine Start Module
- Channel Expander

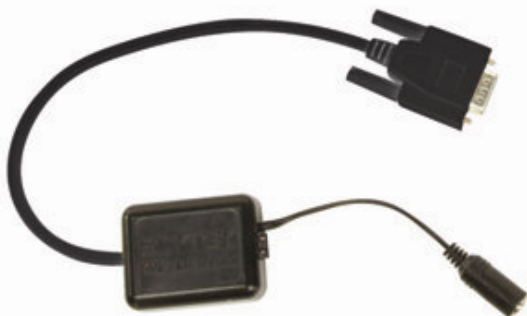

Galaxy 3000+

- Controller Module
- Five-button remote
- Wiring harnesses
- Dual Zone Shock Sensor
- Siren

Features

- "ScyNet" network DataPort Accessory Interface and Wizard Software
- Two 5 Button Code Hopping Remote Controls (four remotes max.)
- Built-In Parking-Light Relay Programmable (+/-)
- Plug-in user programmable Coded Override Switch
- Plug-in Dual-Zone Dual Adjust Piezo Sensor
- Horn / Ignition 2 (Programmable) Output
- Remote Door Locking/Unlocking with negative outputs Passenger Unlock Output
- Three Auxiliary Channels with Selectable Output Types, (Pulsed, Timed or Latched)
- User-Selectable Auto-Arming
- User-Selectable Auto-Rearming
- Remote Panic with Smart Locking/Unlocking

C-NET

C-NET

Features

- "ScyNet" network DataPort Accessory Interface and Wizard Software
- Allow you to change all feature settings and much more with a notebook computer or a pocket PC. on all Galaxy model type controllers
- System test and diagnostics is easy. Special ScyTek wizard installation software running on a Windows PC™ or a Pocket PC™ enables the installer to test and observe any input or activate any output, thus reducing the time it takes to diagnose an installation problem
- Galaxy system stands out ahead of its competition because of the unique features provided by ScyNet. Ease of installation, system programming and diagnostics are only few of the benefits
- Adding a 2-way pager is simply a snap. Installations that require additional output channels are easily achieved by connecting an expansion module to a network port. There are no connection redundancies since every connection is transparent to all modules

ASTRA 1000RS

Astra 1000RS Plus -

- Remote Start module
- Controller Module
- One 5-button 2-way remote
- One 5-button remote
- Wiring harnesses

Features

- One 5-Button 2-way Remote Control
- One 5-Button Remote Control
- Built-In Parking-Light Relay Programmable (+/-)
- Plug-in user programmable Coded Override Switch
- Horn / Ignition 2 (Programmable) Output
- Remote Door Locking/Unlocking with negative outputs
- Passenger Unlock Output
- Two Auxiliary Channels with Selectable Output Types, (Pulsed, Timed or Latched)
- User-Selectable AutoLock - Instant or RPM dependant
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch

Connectors

- AutoActivation of Auxiliary 2 Output for Comfort closure (windows)
- Smart Remote Trunk Release
- Alarm Trigger Identification
- Optional plug-in Door Lock Relay Module

Starter Features

- True RPM Sensing for Real Time Cranking
- RPM Pulse Finding Mode Indication
- Tachless Mode -- Dual Mode reliable Smart Engine Run Sensing
- Gas or Diesel Mode with glow plug input
- Cold Start Timer (Programmable)
- Dedicated Starter Active Output for factory transponder bypass
- Starter Disable Output for Anti Grind feature
- Factory Disarm Output
- Factory Rearm Output
- Programmable Aux. Relay outputs (2nd. Ignition, 2nd. Accessory or 2nd. Starter)
- Stop & Go Mode
- Selectable Engine Run Time
- Enable or Disable Remote Start in Valet Mode

ASTRA 777

Astra 777 - Security System

- Mini Alarm controller module
- Dual-zone shock sensor
- One 5-button 2-way pager remote
- One 5-button remote
- Siren
- Wiring harnesses

Features -

- One 5-Button 2-way Remote Control
- One 5-Button Remote Control
- Built-In Parking-Light Relay
- Plug-in user programmable Coded Override Switch
- Plug-in Dual-Zone Dual Adjust Piezo Sensor
- Horn Output
- Remote Door Locking/Unlocking negative outputs
- Passenger Unlock Output
- Two Auxiliary Channels
- User-Selectable Auto-Arming
- User-Selectable Auto-Rearming
- Remote Panic with Smart Locking/Unlocking
- User-Selectable Auto-Lock
- Remote Keyless Entry and Accessory Activation Even in Valet Mode

- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch Connectors
- Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
- Alarm Trigger zone Identification

Optional Accessories

- Optional plug-in Door Lock Relay Module
- Dual zone Radar Sensor
- Glass Sensor
- Window Rollup

ASTRA 600

Astra 600 Security System -

- Controller module
- Shock sensor
- Two five-button remotes
- Siren
- Wiring harness

Features

- Two 5-Button Remote Controls (four remotes max.)
- Built-In Parking-Light Relay programmable polarity
- Built-In Door lock relays
- Built-In Dome-light Relay programmable polarity
- Built-In trunk release relay (Auxiliary channel 1) programmable polarity
- Built-starter interrupt relay
- Two plug-in dual zone sensor ports
- Plug-in user programmable Coded Override

Switch

- Plug-in Dual-Zone Dual Adjust Piezo Sensor
- Horn Output
- Remote Door Locking/Unlocking negative outputs
- Passenger Unlock Output
- Three Auxiliary Channels
- User-Selectable Auto-Arming
- User-Selectable Auto-Rearming
- Remote Panic with Smart Locking/Unlocking
- User-Selectable Auto-Lock
- Remote Keyless Entry and Accessory Activation Even in Valet Mode
- Remote-Controlled Courtesy Lighting
- Pre-wired LED, Sensor, and Valet Switch Connectors
- Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
- Alarm Trigger zone Identification

Optional Accessories

- Dual zone Radar Sensor
- Glass Sensor
- Window Rollup
- Universal Remote Engine Starter

Optional Accessories

- Optional plug-in Door Lock Relay Module
- Dual zone Radar Sensor
- Glass Sensor
- Window Rollup

- outputs
- Passenger Unlock Output
 - Two Auxiliary Channels
 - User-Selectable Auto-Arming
 - User-Selectable Auto-Rearming
 - Remote Panic with Smart Locking/Unlocking
 - User-Selectable Auto-Lock
 - Remote Keyless Entry and Accessory Activation Even in Valet Mode
 - Remote-Controlled Courtesy Lighting
 - Pre-wired LED, Sensor, and Valet Switch Connectors
 - Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
 - Alarm Trigger zone Identification

ASTRA 200

Astra 200 - Security System

- Mini Alarm controller module
 - Single-zone shock sensor
 - Two 5-button remotes
 - Siren
 - Wiring harnesses
- Features -
- Two 5-Button Remote Controls (four remotes max.)
 - Built-In Parking-Light Relay
 - Plug-in user programmable Coded Override Switch
 - Plug-in Dual-Zone Dual Adjust Piezo Sensor
 - Horn Output
 - Remote Door Locking/Unlocking negative

- Remote Panic with Smart Locking/Unlocking
 - User-Selectable Auto-Lock
 - Remote Keyless Entry and Accessory Activation Even in Valet Mode
 - Remote-Controlled Courtesy Lighting
 - Pre-wired LED, Sensor, and Valet Switch Connectors
 - Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
 - Optional plug-in Door Lock Relay Module
- Optional Accessories
- Optional plug-in Door Lock Relay Module
 - Door Lock polarity inverter
 - Window Rollup
 - Universal Remote Engine Starter

ASTRA 100

Astra 100 Security System -

- Controller module
 - Shock sensor
 - Two 2-button remotes
 - Siren
 - Wiring harnesses
- Features -
- Two 2-Button Remote Controls (four remotes max.)
 - Built-In Parking-Light Relay
 - Plug-in user programmable Coded Override Switch
 - Plug-in Dual-Zone Dual Adjust Piezo Sensor
 - Horn Output
 - Remote Door Locking/Unlocking negative outputs
 - Passenger Unlock Output
 - Two Auxiliary Channels
 - User-Selectable Auto-Arming

- Two Auxiliary Channels
 - Remote Panic with Smart Locking/Unlocking
 - User-Selectable Auto-Lock
 - Remote Keyless Entry and Accessory Activation Even in Valet Mode
 - Remote-Controlled Courtesy Lighting
 - Pre-wired LED, Sensor, and Valet Switch Connectors
 - Auto Disarm with Auxiliary 1 Activation (Trunk Release Output)
- Optional Accessories
- Window Rollup

ASTRA 50

Astra 50 - Keyless Entry System

- Mini controller module
 - Two 4-button remotes
 - Wiring harnesses
- Features -
- Two 4-Button Remote Controls (four remotes max.)
 - Built-In Parking-Light Relay programmable (+/-)
 - Built-In Door Locking/Unlocking relays
 - Built-In Dome-Light relay programmable
 - Plug-in user programmable Coded Override Switch
 - Horn Output
 - Remote Door Locking/Unlocking negative outputs
 - Passenger Unlock Output

ASTRA 1000

Astra 1000 Security Self-Contained Security System

- Features -
- Two 2-Button Remote Controls
 - Built-In Parking-Light Relay
 - Remote Door Locking/Unlocking negative outputs
 - Remote Panic Feature
 - Starter interrupt negative output
 - Learning Piezo Shock Sensor

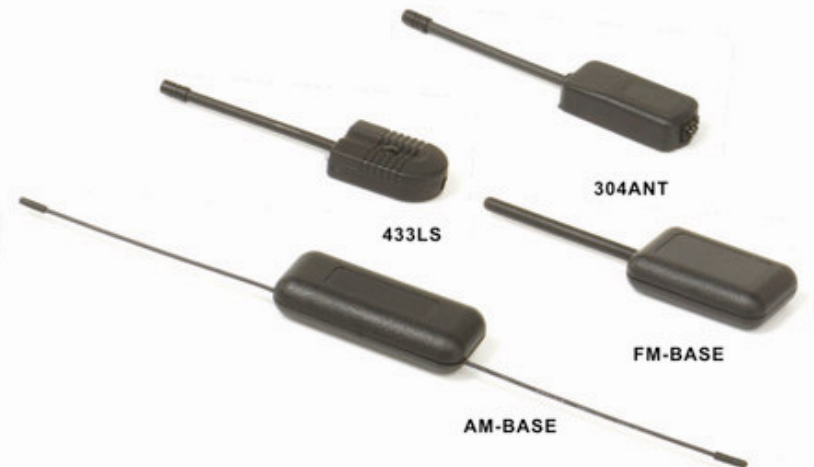

TRANSMITTERS

- T4 four button remote
- T2 two button remote
- T1 hands free remote
- 2W-AM two way AM pager remote
- 2W-FM two way FM pager remote
- T5-ANT five button code hopping remote
- T5 regular five button code hopping remote

RECEIVERS

- AM-BASE replacement receiver for two way AM units
- 433LS replacement receiver for 433MHz units
- 304ANT replacement receiver for 303MHz units
- FM-BASE replacement receiver for two way FM units

SHOCK SENSORS

- PZI dual-zone single-adjust piezo sensor
- PZII dual-zone dual-adjust piezo sensor
- PZII-DA dual-zone dual-adjust piezo sensor
- MS-2 dual-zone dual-adjust microwave motion sensor
- GSI single stage glass break sensor

DOOR LOCKS/WINDOWS

- ACCWR-8 window roll-up module for two windows
- DLRM Door Lock/Unlock relay pack with built-in diodes
- AC-1 actuator for Locking/Unlocking Doors
- INVERTER Lock/Unlock pulse inverter (from negative to positive)

RELAYS/ACCESSORIES

- BP-3R universal transponder by pass module (key required)
- GM-BP Gm pats security by pass module
- MGS-5 5-wire socket
- MGS-3 3-wire socket
- 5P-R 5 pin relay

SIRENS

- SR-36 120DB 6 tone mini siren
- SR-80 120DB 6 tone siren

ABOUT SCYTEK

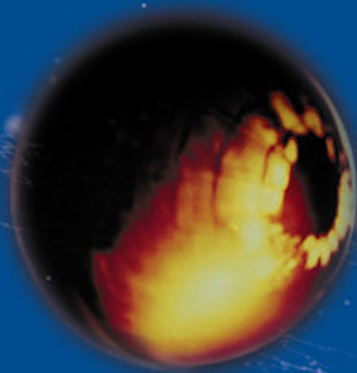

Scytek has a long lineage of leading-edge, seasoned professionals. Using this experience, Scytek is consistently delivering reliable products.

Scytek is founded on a heritage of more than twenty years in product concept, design, production, and reliability.

Scytek products are distinguished by system design integrity.

Scytek products are designed and developed in the USA. They exceed every industry standard and benchmark of performance for automotive security products.

Scytek products are distributed world-wide with the same consistency and integrity.
